ClinicalKey is an advanced search engine that provides fast and deep access to the most current, evidence-based material to support your professional development and clinical decision making.

**Deep evidence from a trusted source**
When you need greater depth, ClinicalKey can help you discover content from an extensive range of books, journals, guidelines, multimedia and more.

**Top Books**
- Robbins & Cotran Pathologic Basis of Disease
- Oh's Intensive Care Manual
- Miller's Anesthesia
- Braunwald's Heart Disease

**Top Journals**
- The Lancet
- JACC
- Annals of Emergency Medicine
- Anaesthesia & Intensive Care Medicine

**The search engine you can trust**
Start typing, and **Smart Search** gets to work immediately, offering shortcuts to related concepts from various sources.

**Save, share and print** content with your personal account.

Use **Presentation maker** to export images with citations as you see them.

Start Your Search

1. Smart Search
   Start typing and Smart Search immediately offers shortcuts to relevant topics. It understands acronyms, synonyms, related medical procedures and drugs.

2. Select Source
   Choose your source type to refine your results before you search.

3. Browse Content Libraries
   Instead of searching, browse by clicking the Browse button in the header – access a single page collecting all different types of content and highlighting the newest books and journals.

4. Clinical Overview
   Highlights content for specific diseases, displayed automatically in right hand column of search results for over 1,400 conditions.
Narrow Your Results

Most current and relevant results appear at the top

1. Easily filter your content by source, study, specialty and date

2. See the number of resources available

3. Jump to related concepts without having to begin a new search
Support for Improved Outcomes at the Point of Care

Clinical Overview Pages
- Over 1,400 disease overviews covering risk factors, treatments, clinical manifestations, and more...

ClinicalKey Mobile App
- Provides you with insights for better patient outcomes anytime, anywhere – available for Apple and Android devices. Download the app from the App Store on your device and login using your personal account details.
