ABSTRAK

This research is a quantitative analysis descriptive approach focused on conducting attitude of Islamic book publisher in Jakarta to the Legal Deposit (UU RI. No. 4/1990) and the concept of bibliographic control and its correlation with the Islamic book entries in BNI (Bibliografi Nasional Indonesia-Indonesian National Bibliography) and KDT (Katalog Dalam Terbitan = Cataloging in Publication).

The population of this research are all of the Islamic book publishers that are located in Jakarta, and the samples are selected by purposive sampling technique with (10) Islamic book publishers as respondents. The data are collected by two techniques, questioner and documentation. The questionnaires are arranged based on Likert scale, and those are applied to collect the data of Islamic book publisher's attitude to the Legal Deposit and to the concept of bibliographic control. Otherwise documentation used to collect data about Islamic book entries in the BNI and KDT

The results of this research are follows: 1). The Islamic book publisher's attitude to the concept of bibliographic control are generally positive. 2). The Islamic book publisher's attitudes to the Legal Deposit (UU RI No. 4/1990) tend to positive, 3). The number of Islamic book entries in Bibliografi National Indonesia = Indonesian National Bibliography (BNI) published 2000-2005 periode are 1142 titles, with the average (mean) are 90 title/year, and 616 titles in Katalog Dalam Terbitan (KDT), with the average are 47 title/year. Thus, the number of Islamic book entries in BNI more than Islamic book entries in the Katalog Dalam Terbitan (KDT), 4). From the statistic analysis was gained two (2) conclusions: a) There is no correlation between the Islamic book publishers attitude's to the bibliographic control concept and to the Legal Deposit with the Islamic book entries both in BNI and KDT, b). The Islamic book publisher's attitude did not give a significant contribution to Islamic book entries both in the BNI and KDT.
