

Reformasi Pendidikan Islam dalam pendidikan Nasional

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=114456&lokasi=lokal>

Abstrak

This paper seeks to investigate the role of islamik education in Indonesia since pre-independence time. The dichotomic system of schooling, for instance, gives much influence to the system and reformation of Islamic education in Indonesia. The separation between Islamic school and non-Islamic based school, even though organized by Muslim groups has distanced a sense of social and religious values that may reinforce the student's behavior.
