

Fenomena dan strategi kebijakan pemerintah daerah dalam pengendalian konversi lahan sawah di Provinsi Bali dan Nusa Tenggara Barat

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=118219&lokasi=lokal>

Abstrak

One of intense phenomena in land use aspect is land conversion. This phenomena occurs due to the needs and the demand pressures on land, namely derives from agricultural and non-agricultural sectors as an impact of the increasing number of population and the community development activities.....
