

Estimasi emisi dioksin/furan dan faktor-faktor yang mempengaruhi konsentrasi emisi ke udara yang berasal dari industri logam

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=118574&lokasi=lokal>

Abstrak

Dioxin/furan is one of the persistent organic pollutants (POP'S) that the government and public in Indonesia has not taken care of ,as there is currently no policy on reducing dioxin/furan emission,even according to previous reserach dioxin/furan emission has already high.....
