

Biodiversity and length frequencies of sharks caught in the Indian Ocean

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119528&lokasi=lokal>

Abstrak

Study on biodiversity and size structure of sharks in the Indian Ocean was conducted at several landing sites and fish markets, i.e. Pelabuhanratu (West Java), Cilacap (Central Java), Kedonganan (Bali) and Tanjung Luar (East Lombok)...
