

Calanoid copepods of the genus centropages and its species-group from Indonesia waters

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119543&lokasi=lokal>

Abstrak

The marine copepods of the genus centropages form a very important component of tropical marine ecosystem, but are poorly known. In a continuing study of the copepods of Indonesian coastal waters, eight species of Indonesian coastal waters, eight species of centropages were collected from 11 sites during 1996-2006...
