

Fate of seagrass production as assessed by cage experiments in *Enhalus acoroides* bed in Gilimanuk Bay, Bali, Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119557&lokasi=lokal>

Abstrak

In 2006, the amounts of seagrass products floating away and depositing were measured by in situ cage experiments in a monospecific seagrass meadow of *Enhalus acoroides* in Gilimanuk Bay, Bali Island.....
