Penelitian ini memakai metode dinamis yang menganalisis aksara berdasarkan bentuk, ukuran, kemiringan, ketebalan, dan ductus dari aksara yang bersangkutan.

Dari hasil penelitian diketahui bahwa:

1. Aksara Merapi Merbabu mempunyai bentuk yang bervariasi
2. Semakin mutakhir usia naskah, jumlah duktusnya semakin sedikit
3. Semakin mutakhir usia naskah, jarak antar aksara semakin renggang
4. Semakin mutakhir usia naskah, penulisan aksaranya semakin tegak .
5. Semakin mutakhir usia naskah, garis pada aksara semakin tipis.
