

Pengolahan gas buang dengan MBE : Pengkondisian gas buang sebelum irradiasi

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119985&lokasi=lokal>

Abstrak

Conditioning of flue gas of coal fired boiler of PLTU was carried out prior to irradiation processing using electron beam machine. Flue gas containing of SO_x and NO_x can damage the environment so that flue gas must be treated before release to environment....
