

Tiga ratus tahun linneaus-suatu pengantar

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=120284&lokasi=lokal>

Abstrak

Three hundred years ago, a sweden expert, Carl von Linne had laid down a very basic and strong foundation in naming all living organisms on earth Supposedly, without the brilliant effort of Carl von linne, nowadays, there may have any chaos among people around the world in naming all the living creatures, because everyone would have given the name to those organisms, due to their own sense, thus a kind species may have thousands of name....
