

The Impact Estimation of Promotion and Protection Policies on Multicultural Economy in Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=121397&lokasi=lokal>

Abstrak

Trade liberalization and economic crisis generate greater challenges in agricultural development in Indonesia. Despite the remaining high tariff rate on Indonesia agricultural product as stated in the WTO agreement, this country applied low import tariff rates of 0-5% during the 1998-2004 for almost all in agricultural products, except for rice and sugar which...
