The Impact Estimation of Promotion and Protection Policies on Hulticultural Economy in Indonesia

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=121397&lokasi=lokal

Abstrak

Trade liberalization and economic cricis generate greater challenges in agricultural development in Indonesia, Despice the remaining high tonort rate on Indonesia agricultural product as stated in the WHO agreement, this country applied low import tariff rates of 0-5% during the 1998-2004 for almost all in argicultural products, except for rice and sugar which...
