

Upaya peningkatan standar pelayanan minimum (SPM) jalan tol di Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=121523&lokasi=lokal>

Abstrak

One of the aspects needed to ensure smooth, safe, comfort and efficient operation of a toll road is related to service and operating system. The Minimum Service Standard (MSS) has been a parameter adopted for measuring the performance of a toll road and its service to the toll road users....
