

Meminimalkan distorasi ketersediaan air bagi tanaman pangan oleh budidaya udang windu di wilayah pengairan jatiluhur

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=124184&lokasi=lokal>

Abstrak

Jatiluhur reservoir has multifunctions, such as for electric power generator, water supply for domestic and for industrial purposes. Perum otorita jatiluhur (POJ) realizes that water demand for domestic and industries will be more in the years to come in contrast with the volume of water stored in the reservoir during the dry season....
