

A Supreme court challenge to argentina's trade union model

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=126226&lokasi=lokal>

Abstrak

A November 2008 ruling of the supreme court of Argentina has challenged the country's statutory system of trade union monopoly. That the "most representative" union be granted such exclusive powers and rights as to marginalize others within the same industry was found to be inconsistent both with the principle of "Free and democratic trade union organization" enshrined in the
