

Strategi dan komponen teknologi pengendalian ulat grayak (*Spodoptera litura fabricius*) pada tanaman kedelai

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=127104&lokasi=lokal>

Abstrak

Indonesia needs approximately 2.20 tons of soybean per year. The domestic production only meets 35-40% of the demand and the remaining 60-65% are imported from foreign countries....
