Dampak local area network terhadap penggunaan sumber informasi sebagai rujukan

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=127167&lokasi=lokal

----

Abstrak

Information could be accessed manually as well as electronivally by offline which provides alternative pathway to find the needed information.. This study was carried out from March to July 2008 to reveal the difference in mount of information source using before and after installation of local area network (LAN) facilities...
