

Pengaruh waktu milling serbuk grafit terhadap kandungan unsur pengotor yang dianalisis dengan teknik analisis aktivasi neutron (AAN)

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128419&lokasi=lokal>

Abstrak

Effects of milling times of graphite powders against the impurities analyzed by neutron activation analysis. Research about the effects of milling times of graphite powders against the impurities analyzed by with neutron activation analysis (NAA) technique was carried out....
