

Penetapan kontaminan radionuklida pemancar gamma dalam produk ^{99}Mo hasil fisi uranium pengkayaan rendah

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128430&lokasi=lokal>

Abstrak

Determination of gamma emitter radionuclides impurities in ^{99}Mo fission products of low enriched uranium. Determination of the gamma emitter radionuclides impurities in ^{99}Mo fission product from low enriched uranium (LEU) by iod-thio extraction methods was carried out...
