

Dissent within the international water community

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128542&lokasi=lokal>

Abstrak

Civil society has played a key role in reshaping the definition of the global commons. This article gives examples of how participatory action research has played a key role in the reframing process. International examples of leadership show how solidarity transnationally can bring about awareness as a precursor for change.
