

karakterisasi pelet campuran uranium oksida dan zirkonium oksida hasil proses sinter

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128831&lokasi=lokal>

Abstrak

Characterization of pellet mixture of oxyde uranium and oxyde zirconium that is sintering process product. Characterization of nixture pellet UO_2 and ZrO_2 result of sintering process has been done as a mean to knows hardness character , microstructure, grain size and pellet density....
