

Pengembangan usaha ternak sapi potong berorientasi agribisnis dengan pola kemitraan

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129067&lokasi=lokal>

Abstrak

Beef cattle are the largest contributor of the ruminants to the national meat production, therefore cattle farming is potential to be developed. In Indonesia, cattle are raised traditionally by farmers as a family saving and as draught animal in land preparation....
