

Prospek pemanfaatan tepung jagung untuk kue kering (Cookies)

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129100&lokasi=lokal>

Abstrak

Cookies is one of the favorite snacks consumed by community . The average consumption of dry cake in the big city and village in Indonesia is 0.40 kg/capita/year. Cookies processing do not need volume development as wet cake and bread, but the cookies have to be crispy, imperishable to water, hard and unbroken easily...
