

## The genotypes X environment interaction for starch yield in nine - month old cassava promising clones

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129121&lokasi=lokal>

---

### Abstrak

Cassava (*Manihot esculena*) is planted in dry area with different environmental conditions, therefore the yield is varied. The aim of the study was to analyze the genotype x environment interaction for starch yield in 9-month old cassava promising clones...
