

Soybean seedling root growth promotion by 1-Aminocyclopropane-1-carboxylate deaminase-producing pseudomonads

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129122&lokasi=lokal>

Abstrak

Pseudomonad producing 1-aminocyclopropane-1-carboxylate (ACC) deaminase (E.C.4.99.4) has been known to promote plant growth by lowering ethylene biosynthesis in higher plants which can be induced by indole-3-acetic acid (IAA) production....
