

The Challenge of climate change for developing country: Indonesia's case

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129197&lokasi=lokal>

Abstrak

While widely accepted as the only global instrument to tackle global warming, Kyoto protocol has proven its inadequacy to enforce the basic principles of polluter pays and common but different responsibility.

Kyoto's legacies which was concluded by the results of 13th conference of parties (COP) in Bali, late last year, has overtly shown that its flexible mechanism are failing ever since its acquiescence....
