

Koefisien tanaman padi (K_c) dengan pemberian air metode sri dan konvensional di laboratorium lapangan

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129260&lokasi=lokal>

Abstrak

To determine crop water requirements of paddy, data of crop coefficient K_c should be made available, generally using the FAO reference value. Crop requirement can be obtained by multiplying the coefficient K_c with potential evapotranspiration E_{to} ...
