

Manipulasi selisih -dipangkatkan -N dan analisis statistika orde tinggi untuk proses ekstraksi ciri sinyal pada sistem rekognisi skema modulasi automatis

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129409&lokasi=lokal>

Abstrak

The analysis of HOS (High Order Statistics) are expected to provide a richer description about data in parametric features for the purpose of pattern recognition of the data of an object or event. The higher order analysis of HOS will give the more candidates of feature parameter that can be selected for utilization....
