

## Produksi mikoinsektisida dari propagaul kapang beauveria bassiana

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129467&lokasi=lokal>

---

### Abstrak

Fungi insecticide or well known as mycoinsecticide is produced from propagules of entomopaghenous fungi. It is a common knowledge that fungi can kill insects, individually or in epizootics and methods for isolation and exploration of fungi are well known...
