

Perhitungan pressure drop pada suction compressor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=129610&lokasi=lokal>

Abstrak

Failure of flow a fluid from a equipment to other equipment often happen caused by significant presure drop. To ascertain pressure ability flow of fluid in piping system necessary done calculation pressure drop earlier in engineering, because pressure drop that calculated to make base generate of pipe routing correctly is connects fron nozzle of vessel to nozzle of suction compressor.
