

The relationships among student multicultural awareness, self, concept and student critical reading achievement

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=130178&lokasi=lokal>

Abstrak

This study was conducted to find out whether multicultural awareness and self - concept are correlated with the student critical reading achievement. One hundred and twenty three undergraduate students consisting of 23 males and 100 females of English Study Program Faculty of Teacher Training and Education were involved in this study...
