

Penerapan student - centered learning dari teacher - centered learning mata ajar ilmu kesehatan pada program studi penjasokes

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=130248&lokasi=lokal>

Abstrak

Topic in health sciences such as physiology, anatomy and myology make student in penjasokes study program less interested due to lack of knowledge or teaching methode that used in learning those materials. Nowaday learning system in almost every higher education in Indonesia still one - directional have character, namely lesson giving by lecturer....
