

Determination of cadmium and lead in human milk

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=132360&lokasi=lokal>

Abstrak

The Objectives of this study were to determine cadmium and lead concentration in the breast milk of healthy lactating women who were living in Zarrinshar, an industrial area of Iran and to investigate the effect of mother's age, parity and smoking habits in families living in the vicinity of areas contaminated with heavy metals.
