

Pengembangan kreativitas pustakawan : tinjauan secara psikologis

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=135790&lokasi=lokal>

Abstrak

A library is an institution administering collections of paper work and record work by professional manner to support users' education, research, information, and recreation. Developing library and a reading society needs a creative librarian who can improve their selves and their creativities by 4-P strategy (person, process, press, and product).
