Abstrak

Tesis ini menyajikan evaluasi kinerja program raskin di empat kecamatan di Kabupaten Tangerang yaitu Cisauk, Pagedangan, Pondok Aren, dan Serpong berdasarkan Indikator 6 T (tepat sasaran, tepat jumlah, tepat harga, tepat waktu, tepat administrasi dan tepat kualitas). Penelitian ini adalah penelitian kualitatif dengan desain deskriptif. Hasil penelitian menyarankan agar Bulog Tangerang meningkatkan kualitas raskin yang dibagikan, Pemerintah Kabupaten Tangerang meningkatkan sosialisasi program ke masyarakat serta mengalokasikan APBD untuk dana pendamping, dan agar program ini diteruskan.

.....Focus of this study is evaluating the performance of rice for the poor program implementation in 2008 in four districts of Tangerang County i.e: Cisauk, Pagedangan, Pondok Aren, and Serpong based on 6 right indicators provided (objective right, quantity right, price right, timely right, administration right, and quality right). This research is qualitative descriptive interpretive. The data were collected by means of deep interview. The researcher suggests BULOG (the government body for managing the logistic) to improve the quality of the rice distributed, regional government to gain the program socialization effort and to allocate sufficient fund to succeed this program, and continuing the program as demanded by the poor.
