Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20277958&lokasi=lokal>

Abstrak

Belanja pendidikan merupakan fungsi distribusi dari peran ekonomi pemerintah yang ditujukan untuk kelompok miskin supaya mereka dapat terlepas dari belenggu kemiskinan. Penelitian ini bertujuan mengukur distribusi manfaat belanja pendidikan diantara kelompok rumah tangga berdasarkan tingkat pendapatan di Kabupaten Klaten pada tahun 2009 dengan menggunakan Benefit Incidence Analysis. Studi ini hanya fokus pada belanja pendidikan untuk SD/SMP/SMA/SMK Negeri. Penelitian ini menyimpulkan bahwa manfaat belanja

pendidikan SD terdistribusi hampir merata pada tiap kelompok pendapatan. Sebagian besar belanja SMP dan SMA/SMK Negeri diterima kelompok pendapatan menengah ke atas.; Education spending is the distribution of the economic role of government intended for the poor so that they can release from poverty trap. This study aims to measure the distribution of education spending benefits among groups of households based on income levels in Klaten Regency 2009 by using Benefit Incidence Analysis. This research only focus on education spending for SD/SMP/SMA/SMK Negeri. The result is education spending benefits for SD distribute almost equal in each income group. Most of education spending benefits for SMP/SMA/SMK accepted by middle and upper income group.
