Abstrak

Skripsi ini berisi analisis tentang pengelolaan parkir on street oleh Unit Pengelola Perparkiran DKI Jakarta di Melawai yang terdiri dari parkir on street lingkungan dan non lingkungan. Tujuannya untuk menganalisis pengelolaan parkir on street oleh Unit Pengelola Perparkiran di Melawai. Penelitian ini menggunakan teori parking management oleh Kodransky dan Hermann dengan pendekatan positivis, deskriptif, cross sectional, yang dilakukan dengan wawancara mendalam, observasi, dan studi kepustakaan.

Hasil penelitian menunjukkan bahwa pengelolaan parkir on street lingkungan berjalan dengan baik. Hal ini dapat dilihat dari terpenuhinya kesepuluh indikator yang digunakan. Sementara itu, pengelolaan parkir on street non lingkungan belum berjalan dengan baik. Dari sepuluh indikator, hanya satu indikator yang terpenuhi sedangkan sembilan indikator lainnya tidak terpenuhi.

.....The thesis contains of analysis about on street parking management by the Jakarta City Government through the Parking Service of Technical Implementation Unit in Melawai, which consists of inside parking lot and outside. The purpose of this research is to analyze on street parking management by the Parking Service of Technical Implementation Unit in Melawai. This research uses theory of parking management by Kodransky and Hermann with positivist approach, descriptive design, cross sectional study, in-depth interview, observation and literature study.

The result shows that inside on street parking lot management in Melawai has running well. This can be seen from the ten indicators that used in this research, all being fulfilled. Meanwhile, the outside on street parking lot management has not running well. From the ten indicators, only one has being fulfilled, nine indicators have not being fulfilled.
