Abstrak

Skripsi ini mencoba menjelaskan hubungan antara konsep crime prevention through environmental design (CPTED) dengan persepsi rasa aman penghuni perumahan Grand Puri Laras. Penelitian ini menggunakan pendekatan kuantitatif dengan kuesioner. Responden mengevaluasi lingkungannya berdasarkan indikator crime prevention through environmental design (CPTED) dan memberikan pandangan terhadap rasa aman berdasarkan situasi yang melingkupinya.

Hasil penelitian ini memperlihatkan bahwa terdapat pengaruh yang signifikan antara desain lingkungan dalam konsep crime prevention through environmental design terhadap persepsi rasa aman penghuni perumahan Grand Puri Laras.

This minithesis attempts to explain the correlation between crime prevention through environmental design model and perception of feel safe among residents in residential, especially at Grand Puri Laras. This study uses quantitative method approach to collect data from the residents. Seventy four respondents using questionnaire as the parameter evaluated environmental feature linked to the crime prevention through environmental design (CPTED) model and reported of self-perception of feeling safe about the surrounding situation.

The result shows there is a significant influence between implementation of crime prevention through environmental design model and the perception of feel safe among the resident in Grand Puri Laras.
