

Memahami desentralisasi fungsional (perbandingan praktek di Belanda, Jepang, USA, dan Jerman)

Irfan Maksum, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20302236&lokasi=lokal>

Abstrak

Functional decentralisation practices in developing countries are mired with the so-called privatisation which is a part of economic desentraisation and/or delegation of administrative decentralization. This concept research is important in order to understand the concept of decentralisation as a whole. This article tries to make comparison of functional decentralisation practices in four countries: the Netherlands, Japan, the United States, and Germany.
