

Integrasi Eropa dan konsep negara-bangsa: perbedaan pengalaman historis Prancis, Inggris, dan Jerman

Nasrulloh Riyano, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20302604&lokasi=lokal>

Abstrak

In the historical evolution of relationship between the state as instrument of authority and its subjects, there is no formulation more widely or even globally - accepted other than nation-state. This article will explore the legacies and the influences of nation-state conception - along with its historical development and its national variants - within the European integration process, to see whether the integration process has become another step in the evolution of statehood thinking or only another specimen to nation-state model.
