Abstrak

Restorative Justice merupakan pendekatan baru di Indonesia yang menawarkan solusi dalam menangani permasalahan Anak yang Berhadapan dengan Hukum (ABH) yang merefleksikan perlindungan terhadap hak anak. Dalam pendekatan ini ada tiga konsep utama yaitu perbaikan, pemulihan, dan reintegrasi. Tesis ini merupakan studi kualitatif tentang peran pekerja sosial dalam pelaksanaan restorative justice Penelitian menunjukkan bahwa dalam pelaksanaan restorative justice, pekerja sosial masih kurang maksimal dan menyarankan upaya-upaya peningkatan kapasitas pekerja sosial; peningkatan koordinasi antar stakeholder; program panti yang lebih banyak melibatkan masyarakat; dan segera mengundang restorative justice serta membuat aturan pelaksanaannya.

.....Restorative Justice is the new approach in the juvenile justice process in Indonesia that offer a solution to handle juvenile offenders that reflected protection of the rights of the child. In this approach there is three main aspect; improvement, to restore the relationship, and reintegration. This is qualitative research that studied roles of social workers in implementation of this approach. This research shown that social workers roles is still less and suggestion to improve the social workers capacity, to improve the coordination of stake holders, involved community in institution programes, and policy made by the law.
