Abstrak

Kota Yogyakarta merupakan salah satu daerah tujuan wisata utama Indonesia yang terletak di Provinsi Daerah Istimewa Yogyakarta. Kota Yogyakarta memiliki beberapa objek wisata yang banyak menarik kunjungan wisatawan baik wisatawan nusantara maupun wisatawan asing. Penelitian ini bermaksud untuk mengetahui karakteristik serta pola keruangan TBD di Kota Yogyakarta. Dengan menggunakan identifikasi sebaran fasilitas pariwisata dan aksesibilitas Kota Yogyakarta diperoleh empat jenis karakteristik TBD. Pertama adalah TBD yang berbasis kepada sejarah yang terletak di Candi Prambanan, yang kedua adalah TBD yang berbasis budaya yaitu Kraton Yogyakarta, yang ketiga adalah TBD bernuansa belanja yaitu di kawasan Malioboro, dan TBD bernuansa pendidikan yang terletak di Universitas Gadjah Mada. Pola keruangan Tourism Business District (TBD) yang ada di Kota Yogyakarta berbentuk menyebar di sisi timur poros kota Yogyakarta. Hal ini disebabkan tingkat aksesibilitas yang lebih memadai di sebelah timur kota Yogyakarta.

.....Yogyakarta city is one of Indonesia's main tourist destination located in Yogyakarta Special Province. Yogyakarta city has several interesting tourist objects that many tourists visit both public and tourists from outside Yogyakarta city itself. The purpose of the research is to identify the characteristics and the spatial pattern of TBD in Yogyakarta City. Using identification of tourism facilities distribution and accesibility of Yogyakarta city, there are four types of characteristics TBD. First is TBD based on the history of which is located in Candi Prambanan, the second is TBD based cultural destination that is in Kraton Yogyakarta, the third is TBD based on shopping destination that is located in Malioboro district, and the fourth type is TBD based on educational destination that is located in Universitass Gadjah MadaThe spatial pattern of TBD that is formed in Yogyakarta city has dispersed pattern that is spreading on the eastern part of the city axis. That is because this part of the city has a more adequate level of accesibility.
