Abstrak

Penelitian ini menggunakan metode pendekatan kualitatif yang diuraikan secara deskriptif, oleh karena itu penelitian ini menekankan pada data primer yang diperoleh melalui wawancara mendalam dan observasi. Selain itu dengan menggunakan data sekunder melalui kajian daftar pustaka berdasarkan kajian buku akan tergambar perkembangan konsep supervisi. Berdasarkan kerja lapangan yang diterima ditemukan fakta bahwa, di Lembaga Remaja Kelas IIA Tangerang terjadi kelebihan kapasitas penghuni. Hal ini telah ditangani oleh Lembaga namun belum optimal, karena penghuni yang tersedia bukan hanya narapidana, melainkan lebih banyak narapidana titipan. Sehingga mengakibatkan over kapasitas. Berdasarkan over kapasitas Lembaga Pemuda Kelas IIA Tangerang Lembaga Pemuda Kelas IIA Tangerang. Hal ini disebabkan karena semakin meningkatnya faktor tingkat kriminalitas, akibat faktor ekonomi dan kebutuhan hidup. Oleh karena itu dapat disarankan kepada Lembaga agar narapidana tersebut dipindahkan ke lembaga yang belum melebihi kapasitasnya, dan hukuman pengawasan 3 bulan tidak boleh dimasukkan ke dalam Lembaga Pemasyarakatan tetapi diberikan oleh pengurus di dinas sosial

.....This research used the qualitative approach method that was untangled in a descriptive manner, therefore this research stressed the primary data that was received through the deep interview and observation. Besides using the secondary data through the study of the bibliography be based on study the book will be depicted by the development of the concept of the supervision. Was based on field work was received by the discovery concerning, in the Institution people young class IIA Tangerang happened over occupants capacity. This matter has been done by the handling by the Institution but not yet optimal, because of available occupants are not only the prisoner, but more entrusted prisoner. So as result in over capacity. Based on the over capacity of the Institution people young class IIA Tangerang Institution people young class IIA Tangerang. This because of having the criminal level factor increased, as a result of the economic factor and the requirement for the life. Because of that could be suggested to the Institution that the prisoner must be moved to a institution that have not yet over capacity, and the punishment were supervised 3 months might not be put into the Correctional Institution but were given by the management in the social service.
