Abstrak

Rencana integrasi sektor keuangan ASEAN pada tahun 2020 mengharuskan adanya peningkatan ketahanan perbankan nasional yang dilakukan melalui penataan struktur kepemilikan saham bank. Skripsi ini membahas mengenai bagaimana penilaian Tingkat Kesehatan Bank dan Good Corporate Governance (GCG) mempengaruhi kepemilikan saham bank umum di Indonesia. Selain itu yang dibahas adalah mengenai potensi permasalahan yang mungkin terjadi dari penerapan kebijakan Bank Indonesia tentang kepemilikan saham bank umum terkait dengan penilaian Tingkat Kesehatan Bank dan GCG. Dengan menggunakan metode studi kepustakaan, diketahui bahwa penilaian Tingkat Kesehatan Bank dan GCG merupakan faktor penentu kepemilikan saham bank umum di Indonesia.

.....ASEAN financial sector integration plan in 2020 requires enhancement of resilience of the national banking system which is conducted through regulating the structure of bank ownership This paper examines about how the assessment of Bank Soundness and Good Corporate Governance GCG affect the share ownership of commercial banks in Indonesia Moreover it also discusses the potential problems that may occur from the application of Bank Indonesia's policy on share ownership of commercial banks related to the assessment of Bank Soundness and GCG By using the method of literature study it is known that assessment of Bank Soundness and GCG are determining factors of share ownership of commercial banks in Indonesia.
