Abstrak

Penitentiary, on one side is a vulnerable place for inmates' deradicalization. On the other side, it plays an important role as positive transformation incubator for the inmates. It truly depends on inmates' coaching model, especially terrorism inmates' coaching. Radicalization here, is a flourishing and spreading process of radical values brought by terrorism inmates to the others. This research has done in Cipinang class I penitentiary, using qualitative methods. The goal of this research is to know the terrorism inmates' coaching pattern in order to deradicalize them and what kind of problems that occurs during the process. In implementation of terrorism inmates' deradicalization, Cipinang class I penitentiary is cooperates with MUI, Depag and NGO. There are obstacles, which are inadequate facilities and infrastructure, 'hard' character of the terrorism inmates, coaching staff's condition which still needs for quality and quantity upgrades, and lack of government and society's support.
