Abstrak

Skripsi ini memberikan gambaran mengenai perwujudan good governance di Indonesia khususnya dalam Dewan Pertimbangan Presiden. Indikator terwujudnya good governance secara umum adalah dipenuhinya asas transparansi, akuntabilitas dan partisipasi masyarakat dalam setiap hal yang berhubungan dengan kepentingan umum. Implementasi ketiga asas ini diwujudkan dengan keterbukaan penerimaan aspirasi publik sebagai bahan pengambilan isi nasihat dan pertimbangan hukum serta publikasi nasihat dan pertimbangan hukum Dewan Pertimbangan Presiden. Di sisi lain tindakan ini berbenturan dengan kerahasiaan isi nasihat dan pertimbangan hukum Dewan Pertimbangan Presiden. Penelitian ini adalah penelitian kualitatif dengan desain deskripsi analitis. Hasil penelitian menunjukkan bahwa tidak terdapat hubungan antara implementasi asas transparansi, akuntabilitas dan partisipasi dengan tindakan penyebarluasan isi nasihat dan pertimbangan hukum Dewan Pertimbangan Presiden.

.....This thesis provides an overview of good governance in Indonesia, especially in President's Advisory Council. Indicator of good governance in general is the fulfillment of the principles of transparency, accountability and public participation in any matters related to the public interest. Those principles are realized by the openness of public acceptance as the material on the taking of the contents and the publication to legal advice and consideration of the President's Advisory Council. On the other hand, these actions conflict with confidentiality in the content of legal advice and consideration of the President's Advisory Council. This study is a qualitative research design with an analytical description. The results showed that there was no correlation between the implementation of the principles of transparency, accountability and participation with the content dissemination actions legal advice and consideration of the President's Advisory Council.
