Abstrak

ABSTRAK

Penelitian ini bertujuan untuk menganalisis proses penyusunan anggaran serta kemungkinan pengaruh penghentian program perintisan Sekolah Bertaraf Internasional (SBI) terhadap kegiatan dan pendanaan empat sekolah eks Rintisan SBI di Kabupaten Pati. Penelitian ini dilakukan dengan metode wawancara dan telaah dokumen. Dari hasil penelitian, ditemukan bahwa masih terdapat objek penelitian yang belum mengikuti ketentuan mengenai tahapan penyusunan, struktur, dan format anggaran yang telah ditetapkan. Objek penelitian juga masih menghadapi beberapa masalah, terutama terkait dengan pencairan dana yang berasal dari Pemerintah. Pasca penghentian program perintisan SBI, objek penelitian ingin tetap menjalankan sebagian programnya tanpa membebani orang tua siswa.

ABSTRACT

This study aims to analyze the budget preparation and the possible effects of International-Standardized School (SBI) program termination to activities and funding of four schools in Pati Regency. This research is conducted through interviews and document review. It is found that there are schools that have not complied with regulation about stages of preparation, structure, and format of the budget that has been set. The schools face several problems, mainly related to the disbursement of Government's funds. After the termination of SBI pioneering program, schools are likely to still run some of their programs at no cost to the students' parents.
