Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20345804&lokasi=lokal>

Abstrak

Bank Sampah merupakan suatu program pengelolaan sampah yang sangat dekat dengan masyarakat dimana masyarakat merupakan penggerak utama kegiatan Bank Sampah. Penelitian ini menggunakan pendekatan kualitatif dengan jenis penelitian deskriptif. Partisipasi masyarakat dalam Bank Sampah di Kecamatan Pancoran Mas cenderung pada tahap terapi di tangga non partisipasi Arnstein.

Partisipasi masyarakat sudah ditunjukkan melalui swadaya masyarakat dalam Bank Sampah, tetapi masyarakat masih ketergantungan dan membutuhkan peran pemerintah agar kegiatan Bank Sampah berjalan maksimal. Perlu adanya sistem keterlibatan masyarakat dalam menjalankan kegiatan Bank Sampah yang dituangkan dalam Peraturan Daerah Kota Depok tentang Pengelolaan Sampah.

.....Waste Bank is a waste management program that is very close to the community where the community is a major driver of activity Waste Bank. This study used a qualitative approach with descriptive type of research. Community participation in the Waste Bank in Pancoran Mas District likely at this stage in the therapy of non participation Arnstein ladder.

Community participation has been demonstrated through independent in Waste Bank, but the community is still dependent and requires the government to run a maximum of Waste Bank activities. Need a system of community involvement in running the Waste Bank as outlined in Regional Regulation on Waste Management Depok.
