Abstrak

Penelitian ini bertujuan untuk menganalisis pengaruh eksposur nilai tukar terhadap return saham perusahaan domestik non-keuangan di Indonesia dan determinan eksposur nilai tukarnya. Determinan eksposur nilai tukar yang digunakan dalam penelitian ini adalah kekuatan keuangan, kekuatan operasional, kesempatan pertumbuhan, ukuran perusahaan, dan likuiditas perusahaan. Hasil dari penelitian menunjukkan bahwa sekitar 33 persen dari sampel yang ada menunjukkan terdapat eksposur nilai tukar Rupiah terhadap Euro dan 57 persen dari sampel menunjukkan terdapat eksposur nilai tukar Rupiah terhadap Dollar Amerika Serikat. Kekuatan keuangan yang diproksikan oleh variabel Total Debt to Total Asset dan kekuatan operasional yang diproksikan oleh Asset Tangibility serta Asset Turnover terbukti signifikan memengaruhi besaran eksposur nilai tukar Rupiah terhadap Euro. Sedangkan, kekuatan operasional yang diproksikan oleh Asset Turnover, ukuran perusahaan yang diproksikan oleh Market Value, dan likuiditas yang diproksikan oleh Dividend Payout terbukti signifikan memengaruhi besaran eksposur nilai tukar Rupiah terhadap Dollar Amerika Serikat.
